

# Work Smarter & Faster with the World-Class Metasys User Interface

## Metasys New ADS/X & OAS Promotion

Get the most out of your Metasys system with our latest server software, now with multiple options to cost-effectively accommodate any building management need. The Metasys server software, including the new Open Application Server (OAS), includes the powerful Metasys user interface, designed to maximize your efficiency and make troubleshooting faster than ever.

The power behind **your mission**

## Add Metasys User Interface Benefits with New ADS/X and OAS Options

Metasys server software enables configuration of the Metasys user interface.

The Metasys user interface empowers you to:

- Get to vital info faster—up to 86% fewer clicks—with intuitive spaces and equipment-based navigation
- Better visualize spaces with photo-realistic graphics
  - Includes online graphics generation and editing
- Reduce time on task with industry-leading alarm management features
- Restore order quickly with search and reporting features to easily find and document operational data
- Help prevent unauthorized access by applying IT best practices, including password management and secure, encrypted communications
- Stay on top of key user account and system information to better understand and address potential cybersecurity issues with the award-winning Cyber Health Dashboard

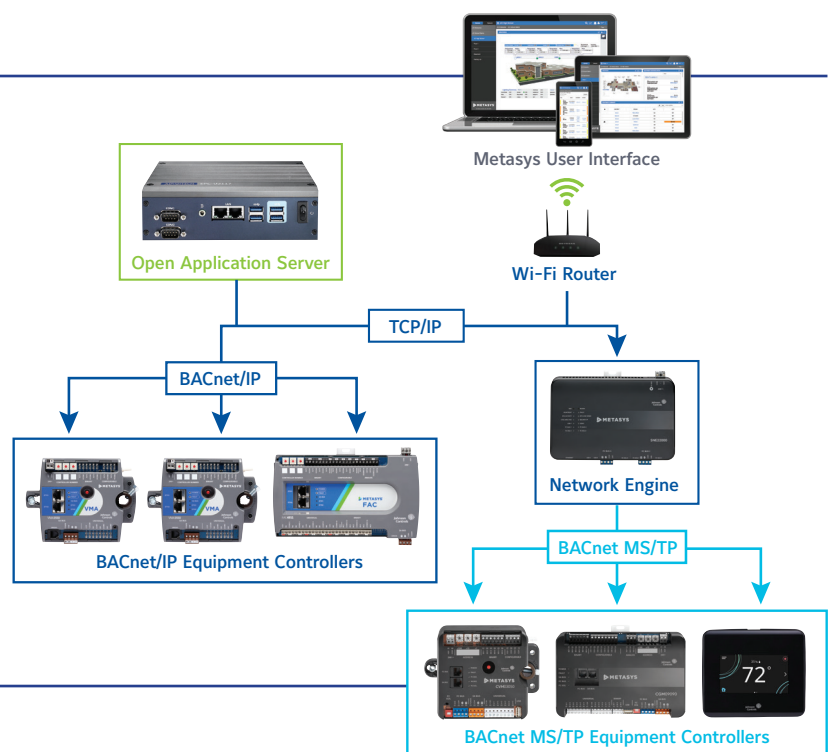

### Program Details:

- 40% off New Application & Data Server (ADS) software
- 40% off New Extended Application & Data Server (ADX) software
- 40% off New Open Application Server (OAS) software

Promotion valid through September 30, 2021. Contact your Johnson Controls representative for more information.

### What is the Metasys Open Application Server (OAS)?

- Essential network engine functions are combined with an ADS into a single piece of software
- Can be hosted on a virtual machine (with required specifications) or purchased turnkey
- Site Director option adds significant value for conventional controls projects
- Add-on licensable features let you archive historical data, trends, alarms and events

### Terms & Conditions

1. Order must contain the following at time of purchase:
  - a. New ADx software or New OAS software
  - b. Network Engine Upgrade software
  - c. Subscription
2. Microsoft Sequel (SQL) software versions excluded
3. Valid on server software only; all server hardware excluded
4. Configuration of the Metasys user interface required to qualify
5. Valid for existing Metasys customers only. Current Metasys revision number required.

The power behind your mission
